

6 Card Bonus

The 6 Card Bonus is an additional optional bonus bet for Three Card Poker. The rules are as follows:

1. A player shall only place a 6 Card Bonus wager if he/she has also placed an Ante wager prior to the initial deal.
2. 6 Card Bonus wagers must be placed prior to the initial deal.
3. The 6 Card Bonus wager considers the three cards dealt to the player's hand and the three cards dealt to the player-dealer's hand. A player then uses any of those six cards, regardless of the number of cards used from their hand or the player-dealer's hand, to make the best possible five card poker hand.
4. If the player's hand qualifies for payouts, the player is paid by the player-dealer according to the posted pay table below.
5. If the player's hand does not qualify for payouts, the player-dealer collects the 6 Card Bonus wager.
6. The player-dealer will pay all winning 6 Card Bonus wagers and will collect all losing 6 Card Bonus wagers.
7. The 6 Card Bonus wager may win or lose regardless of the outcome of the Ante wager. The 6 Card Bonus wager shall not be forfeited if the player folds their hand and does not place a Play wager.
8. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.
9. Backline betting may not be permitted on the 6 Card Bonus wager.

How to Play

1. Begin by placing an ante wager and paying the appropriate collection. Player must make an ante wager in order to play the game.
2. Once an ante wager has been placed, Player may choose to bet the optional Pair Plus wager.
3. Cards are then dealt to the players. Each hand of cards must contain exactly three (3) cards. There is NO chance to draw additional cards.
4. The Player/Dealer receives the last hand dealt. The casino dealer exposes one (1) card from the Player/Dealer hand. Players may now look at their cards. (Players are NOT allowed to touch their cards until the casino dealer has turned one card face-up from the Player/Dealer hand.)
5. Players now choose to either play or fold.
6. If the Player folds, he surrenders his cards and loses his Ante and Pair Plus wagers.
7. If the Player chooses to play the hand, he must place a "Play" wager that is equal in value to his Ante wager.
8. The casino dealer then exposes the Player/Dealer hand.

Game Rules

1. The Player/Dealer's hand must "qualify" with a Queen-high or better hand for the "Play" wagers to receive "Action."
2. If the Player/Dealer's hand does NOT qualify, all "Play" wagers are returned to the Players.
3. If the Player/Dealer hand does NOT qualify, all Players who remained in the hand by placing a "Play" wager will automatically win their Ante wagers. In this case, hand comparison does not matter. A Player's Ante wager will win simply because the Player/Dealer's hand did not qualify.
4. When the Player/Dealer's hand does qualify with a Queen-high or better, the Player's hand is compared with the Player/Dealer's hand.
5. If the Player's hand ranks higher than the qualified Player/Dealer's hand, the Player will win even money on both the Ante and Play wagers.
6. If the Player's hand ranks lower than the qualified Player/Dealer's hand, the Player will lose both the Ante and Play wagers.
7. If the Player's hand and the qualified Player/Dealer's hand are identical in value, the Ante and Play wagers will push.
8. Additionally, any Player who remained in the hand by placing a "Play" wager, and also placed a "Pair Plus" wager, will be paid for the Pair Plus wager if the hand contains a Bonus hand (a Pair or better.)
